CROQUET IN THE COMMUNITY

On Tuesday 19th November Ann and Jean attended their second meeting with Active Maldon. Active Maldon is a multi-agency network group made up of representatives from local organisations within the statutory, voluntary and private sectors. The aim is to lead, develop and co-ordinate sport and physical activity in conjunction with Active Essex. The group work closely with local sports clubs, leisure centres and organisations to promote physical activity, health & wellbeing. Being part of this group gives us the opportunity to work in partnership with other organisations to promote the game of Croquet to the wider community. As you can imagine we never miss an opportunity to bring croquet to the fore, having said that we have learnt so much about what goes on in our area, and made useful contacts. Ann Redican.

A team from our Club recently took part in a charity quiz in aid of Action for Carers held at Drapers Farm and were respectable runners up! One member also won a raffle prize!
